Computer Programming Skills

- C# | C++ | Microsoft SQL | Java | Python

Data Visualization

- Microsoft Power BI | Microsoft Excel

Web Design

- HTML | CSS | PHP | JavaScript

Languages

- Amharic (native) | English (Proficient)

Projects

Data Analysis Project – T-Bike Ride Company Revenue and Trends Analysis

- Conducted Hourly Revenue Analysis across a week to identify peak business hours
- Analyzed Profit and Revenue Trends using SQL and Power BI tools
- Explored Seasonal Revenue Trends to identify high-performing seasons
- Assessed Rider Demographics to understand customer segments and provided recommendations
- Developed a comprehensive report with an estimated timeline for completion of pricing strategies and presented a recommendation for price adjustments next year, predicting a potential increase in revenue

Car Dealership Inventory Management System

- Developed a Car Dealership Inventory Management System using C# and SQL, streamlining the buying and selling processes with features like car listings, sell-your-car functionality, and agent dashboards.
- Implemented user and agent functionalities, allowing users to view car listings and sell their vehicles by contacting local agents, while agents manage listings and incoming messages.
- Designed an account settings module for both users and agents to update personal information and change passwords, enhancing system flexibility and user experience.

Employment

Team Member, Whole Foods Market

Apr. 2024 - Dec.2024

- Monitored inventory levels, ensured accurate stocking and organization of shelves, and coordinated the receipt and sorting of overnight deliveries to streamline store operations and meet operational timelines
- Delivered exceptional customer service by answering inquiries, guiding customers, and documenting product discrepancies to improve communication, problem-solving, and inventory accuracy
- Maintained cleanliness and organization in work areas, implemented process improvements, and verified product quality and pricing to ensure compliance with company standards and optimize workflow efficiency

Clubs and Organizations

National Society of Black Engineers

Sep. 2024 - Present

- Provide support to board members with event organizing
- Attend job fairs, workshops, and networking events

African Student United

Sep. 2024 - Present

- Raise awareness about different socio-political events happening in Africa
- Participate in educational meetings and cultural events

Mathiwo's-Wendu Ethiopian Cancer Society

Sep. 2017 - Sept.2022

- Provided care and support for children with cancer, offering emotional and physical assistance while engaging them in activities such as soccer, tennis, and volleyball to promote well-being
- Tutored children in basic Math, English, and General Sciences, fostering academic growth and helping patients stay engaged during treatment
